“This letter constitutes a demand to cease and desist engaging in the sale of adulterated and/or mislabeled herbal dietary supplements, and in particular to immediately stop the sale of three “Up & Up” dietary supplements as identified by lot number in the exhibit annexed here to.”

“The ARIIX supplements, particularly the Optimals, have been subjected to **more testing and validation than any other products we have ever produced.** We have verified the label claim of each active ingredient at *multiple* ISO-17025 accredited laboratories, leaving nothing to chance.”

—Brent Roth, President, UST

A 3D digital illustration of a purple macrophage, a type of white blood cell, engulfing several dark purple, spherical bacteria. The macrophage has a complex, multi-lobed body with numerous long, thin, hair-like projections extending from its surface. The bacteria are clustered together in a small pile, and the macrophage is positioned over them, with its body partially covering them. The background is a light, neutral color with soft, ethereal lighting. In the bottom left corner, there is a decorative graphic consisting of several overlapping hexagons in shades of light blue and white.

restoriix™

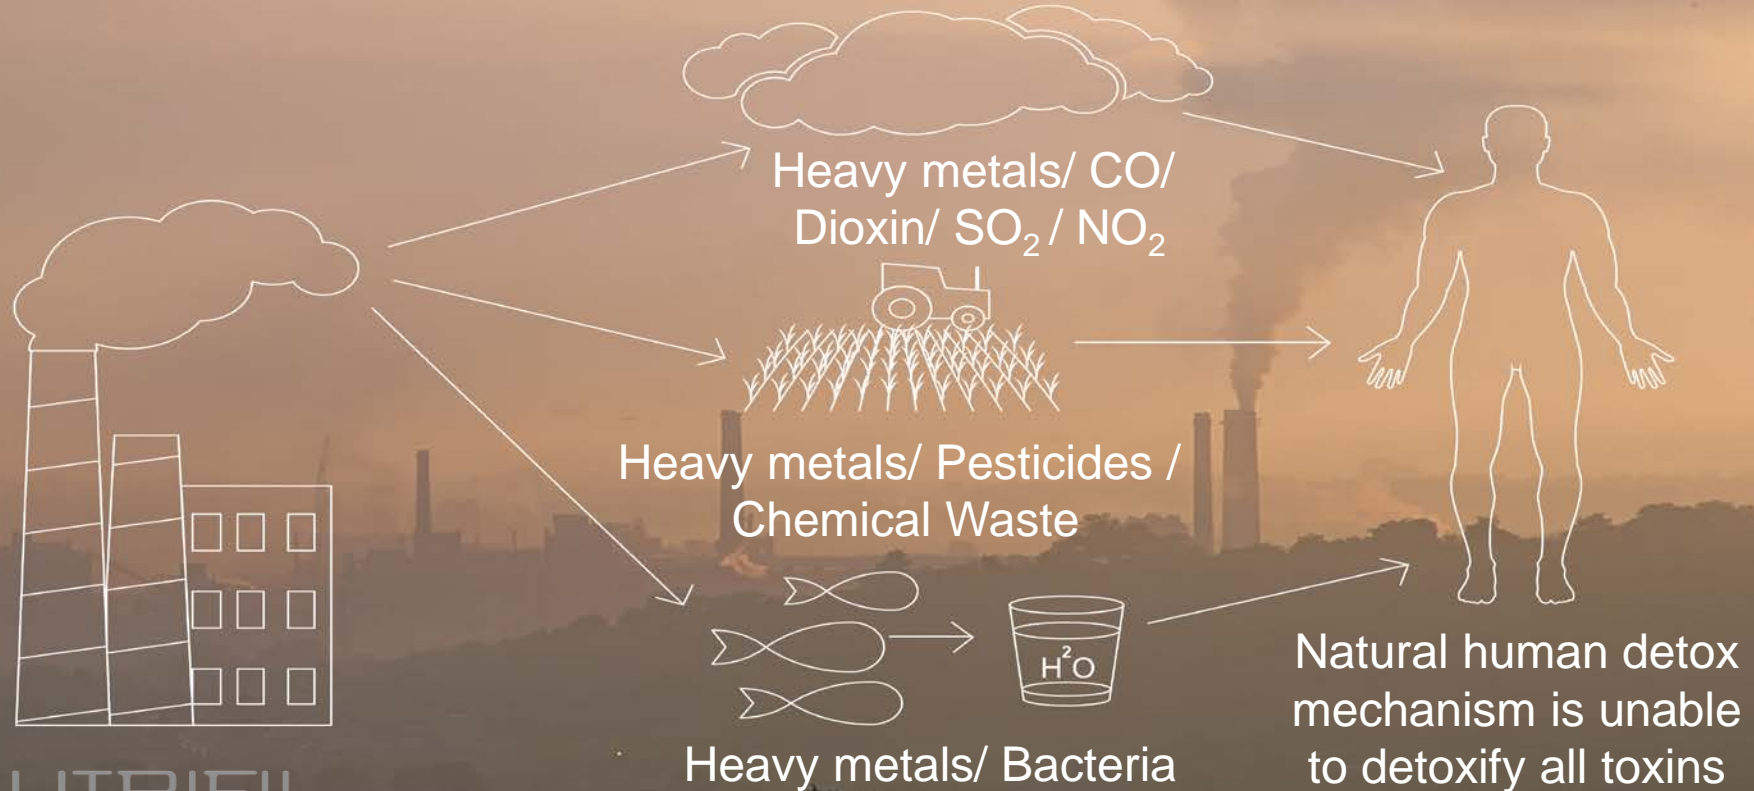

Restorative blend of Zeolite and Superfoods

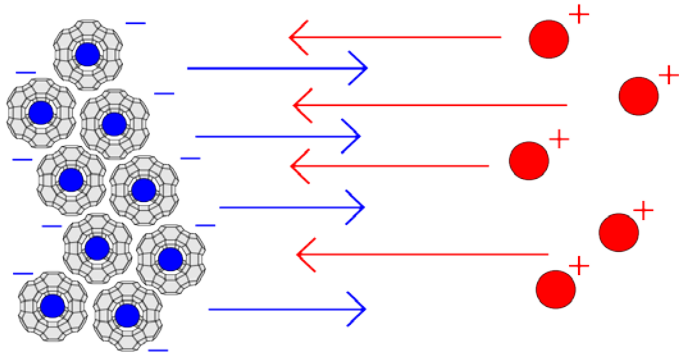

- Zeolite: a powerful remover of unwanted substances
- Blended with Superfoods (like Spirulina & Chlorella) for body restoration

NUTRIFII™

TOXINS are dangerous and our bodies are polluted

How does Zeolite work?

1. Negatively charged Zeolite
2. Will exchange positively charged ions
3. Then will excrete out

How does Zeolite Work?

Zeolites have large, vacant spaces – or cages- that allow space for large, positively charged ions to be attracted to it, then trapped and eliminated from the body.

Chlorella, a nutrient-rich green food:

- Helps remove toxins*
- Cleans the organs*
- Purifies the blood*
- Aids in digestion and restoring PH*
